Cat. No. 700-3405

Diskette and Instructions For Using Remote Disk Cat. No. 26-3839 On Your Color Computer

Required Equipment

- At least one disk drive
- Color Computer Interface Cable (4-pin DIN to DB25) (Cat. No. 26-3014)
- Other equipment as listed in the Remote Disk Manual

Backing Up Your Diskette

It is always advisable to make a backup of the diskette that comes with a program and store the original diskette in a safe place, and use the copy. To make a backup, follow these instructions:

Formatting A Diskette

1. Turn on your Color Computer. Insert a blank diskette in Drive 0.
2. Type **DSKINI0** (ENTER)
3. The formatting is completed when your screen displays:

   OK

Making Backups

1. Remove the newly formatted diskette from Drive 0, and insert your Remote Disk diskette in Drive 0.

2. a. If You Have One-Drive

   Type **BACKUP 0** (ENTER).

   The Remote Disk diskette is your source diskette. The newly formatted diskette is your destination diskette. Follow instructions for exchanging diskettes until the backup is completed.

   b. If You Have Two-Drives

   Insert the newly formatted disk in Drive 1 and the Remote Disk Diskette in Drive 0.

   Type **BACKUP 0 TO 1** (ENTER)

3. Label your new diskette as your working diskette and store the original in a safe place.

To Use Remote Disk

Connect the DIN end of the RS-232 cable to the Color Computer and the DB25 end to the null modem adapter, then plug the adapter into the Model 100.

Turn on your Model 100 and your Color Computer. Insert the working diskette into the Color Computer drive. At the OK prompt, type:

RUN "DOS"

Select DOS menu option 2--Exec a program.

Type **RMDISK** in response to the prompt for program name if you plan to use the RMDISK program for storing files.

Type **RDFTU** in response to the prompt, to use the File Transfer Utility, which permits the use of text files prepared on the Color Computer to be used on your Model 100 and those prepared on the Model 100 to be used on the Color Computer.

The screen of your desktop computer displays the message:

```
Awaiting Command from Model 100
```

To use the RMDISK program, refer to the instructions in the Remote Disk Manual. To use the File Transfer Utility, press the (BREAK) key on the Color Computer when you see the Awaiting Command from Model 100 prompt.

The File Transfer Menu is displayed. Follow the instructions for use in the Remote Disk Manual.
